North Central KY Area
Health Education Center
500 Technology Way
Florence KY 41042

A

\$52,000

Polysomnographic Technician

Polysomnography is a comprehensive recording of the biophysiological changes that occur during sleep.

**AB**

\$69,580

Diagnostic Medical Sonographer

Diagnostic medical sonographers, cardiovascular technologists, and vascular technologists; operate special imaging equipment to create images or to conduct tests. The images and test results help physicians assess and diagnose medical conditions. Some technologists assist physicians and surgeons during surgical procedures.

**AB**

\$80,000

Radiation Therapist

Radiation therapists treat cancer and other diseases in patients by administering radiation treatments.

Sonographer:
Ultrasounds for pregnancy and other organs.

Cardiovascular:
The heart and heart vessels.

Vascular:
Vessels throughout the body, not in the heart.

B

\$73,000

Nuclear Medicine Technologist

Operate equipment that creates images of areas of a patient's body. They prepare radioactive drugs and administer them to patients.

**AB**

\$60,300

Radiologic technologist

Radiologic technologists, also known as radiographers, perform diagnostic imaging examinations on patients through various modalities. These include: X-Ray, Magnetic Resonance Imaging (MRI), and Computerized Tomography (CT).

D

\$380,000

Radiologist

Diagnosis of diseases and injuries using medical imaging techniques.
